

## Tax Rebate 2008

Uncle Sam wants to help you  
purchase  ShoreTel®

Now is the time to move forward with your purchase. Section 179 of the Internal Revenue Code provides clear incentives for small businesses to upgrade their technology in 2008.

[The Economic Stimulus Act of 2008](#) provides incentives to businesses. The short and sweet of it is that you can write off up to \$250,000 of section 179 property purchased this year. This includes software purchases that are usually written off in three to five years.

So, here are some examples of the savings you will see -

Take the 34% tax bracket for example -

A \$10,000 ShoreTel purchase really only costs you \$6,600. That's a \$3,400 savings right off the top courtesy of Uncle Sam.

Or a \$56,000 ShoreTel purchase for only \$36,960.

Or \$86,000 in ShoreTel phone upgrades for \$56,760.

Well, you get the idea. Whether purchasing a new system altogether or expanding your current infrastructure, you can save a ton of money if you buy now. The timing couldn't be any better to position yourself with an industry leading phone system and then top that off with help from Uncle Sam.

Please consult a tax advisor for specifics on the 2008 Economic Stimulus Act. Teledata Communications is not a tax advisor and only presents the information above for example purposes. Visit [www.irs.gov](http://www.irs.gov) for additional information.
